List of figures

Figure 1.1: Capital account openness of economies.....	14
Figure 1.2: Assets of selected major central banks.....	15
Figure 1.3: International investment positions (IIP).....	16
Figure 1.4: Total domestic credit and credit gap of advanced and emerging economies.....	17
Figure 2.1: Distribution of EMPI values, normalized.....	26
Figure 2.2: Theoretical receiver operating characteristics (ROC) curves.....	40
Figure 2.3: Receiver operating characteristics (ROC) curves of model specifications.....	40
Figure 3.1: Total domestic credit and credit gap of advanced and emerging economies.....	50
Figure 3.2: International investment positions (IIP).....	51
Figure 3.3: Components of gross capital flows.....	52
Figure 3.4: Capital account openness of economies.....	52
Figure 3.5: Overview of influence channels (C1-C6) and hypotheses.....	55
Figure 3.6: Gross capital flows and other macroeconomic variables for selected economies.....	61
Figure 3.7: Gross and net capital flows around a banking crisis.....	79
Figure 3.8: Components of gross capital flows around a banking crisis.....	79
Figure 3.9: Credit growth and credit gap around a banking crisis.....	80
Figure 3.10: Interest rates around a banking crisis.....	80
Figure 4.1: Articles containing the word “bazooka” on Bloomberg.....	82
Figure 4.2: Klaas Knot, OMT as a big bazooka.....	82
Figure 4.3: Timeline of borrower and creditor actions.....	90
Figure 4.4: Borrower equity in 4 scenarios.....	94
Figure 4.5: Creditor equity in 4 scenarios.....	94
Figure 4.6: CDS spreads of major US banks following TARP.....	98
Figure 4.7: CDS spreads of selected sovereigns around the G20 London Summit.....	100
Figure 4.8: CDS spreads of GIIPS countries around SMP, EFSF/EFSM and OMT.....	102
Figure 4.9: Probability of default vs. equity.....	105
Figure 4.10: Interest rate vs. equity.....	105
Figure 4.11: Probability of default with support.....	106
Figure 4.12: Interest rate with support.....	106
Figure 5.1: Assets of selected central banks.....	113
Figure 5.2: Assets of selected central banks.....	113
Figure 5.3: Domestic composition of CB balances.....	123
Figure 5.4: International composition of CB balances.....	123
Figures 5.5 and 5.6: Domestic orientation of CBs in 2006 and 2011.....	124

Figures 5.7 and 5.8: International orientation of CBs in 2006 and 2011.....	125
Figure 5.9: Measure for change in monetary policy implementation between 2006 and 2011.....	127
Figure 5.10: Effect of LTRO: actual vs. hypothetical bond yields for GIIPS countries.....	143
Figure 5.11: Effect of SMP: actual vs. hypothetical bond yields for GIIPS countries.....	144
Figure 6.1: Monetary base and overnight interest rate.....	151
Figure 6.2: Stock and 10-year Japanese government bond yields.....	152
Figure 6.3: Development of Gini coefficient of income.....	155
Figure 6.4: Gini coefficient of net savings.....	156
Figure 6.5: Impulse response of the Gini coefficient to a monetary base shock.....	158
Figure 6.6: Impulse response of Gini coefficient to a monetary shock, alternative.....	160
Figure 6.7: Ratio of income of the top 20% to the bottom 20% income group.....	160
Figure 6.8: Impulse response of the ratio of top 20% / bottom 20% to a monetary base shock.....	161

List of tables

Table 2.1: Descriptive statistics of explanatory variables.....	32
Table 2.2: Correlation among explanatory variables.....	33
Table 2.4: Regression results for currency crises with alternative specifications.....	37
Table 2.5: Regression results with different measures of openness/institutional quality.....	38
Table 2.6: Noise and Signal in predicting currency crises in 2008.....	39
Table 2.7: List of crisis episodes.....	43
Table 2.8: List of sample countries.....	43
Table 3.1: Descriptive statistics of main variables.....	58
Table 3.2: Correlations between components of gross inflows and outflows.....	59
Table 3.3: Correlations between components of gross inflows and other variables.....	59
Table 3.4: Regression results for credit growth (change in credit to GDP).....	61
Table 3.5: Regression results for credit gap (deviation of credit to GDP from trend).....	62
Table 3.6: Regressions for banking crises (Laeven and Valencia, 2013).....	64
Table 3.7: Regressions for credit growth (change in credit to GDP), alternative.....	66
Table 3.8: Regression results for credit gap (actual credit minus trend), alternative.....	67
Table 3.9: Regression results for credit growth and credit gap, by openness.....	69
Table 3.10: Regression results for banking crisis, by openness and exchange rate regime.....	70
Table 3.11: Regression results for banking crises, test for non-linear effects.....	71
Table 4.1: Illustrative balance sheet of the public sector creditor.....	87
Table 4.2: Illustrative balance sheet of the distressed borrower	88
Table 4.3: Characteristics of selected public sector support programs for financial institutions.....	100

Table 4.4 Characteristics of selected public sector support programs for sovereigns.....	101
Table 5.1: Main monetary policy instruments of the ECB.....	120
Table 5.2: Stylized central bank balance.....	122
Table 5.3: Classification of central banks by change in balance sheet composition.....	126
Table 5.4: Selected studies on the effectiveness of unconventional (ECB) policies	139
